

Safety Policy

RRM-CLM Services, LLC provides campground management and other services for Federal, state, and local agencies for high-quality outdoor recreation experiences for all visitors. The services we provide are often on public lands which increases our commitment to be good stewards as a trusted partner with public agencies, and to uphold the highest standards possible. We are committed to the protection of the environment within which we provide these services, the conservation of resources, and the prevention of pollution.

This RRM-CLM Services, LLC Safety Policy has been developed to guide management decisions and operational activities at all locations managed by our company. This policy is the foundation for our safety management system, and other management systems that may be implemented at designated locations.

RRM-CLM Services, LLC is committed to ensure full compliance with all environmental and safety regulations, for providing a safe and healthy working conditions, elimination of hazards and reduction risks, to encourage consultation and participation of workers, for the continuous improvement to reduce such obligations as we move to more sustainable operations, and to establish the framework for setting environmental and safety objectives.

This Safety Policy was developed by the senior management of RRM-CLM Services, LLC and is authorized for implementation at all locations by the President, RRM-CLM Services, LLC. A copy of this Safety Policy will be made available to all employee, interested parties, and the general public.

Warren Meyer
President
